Vacuum solutions for the food industry

Leybold offers the best products and most reliable vacuum solutions for each application

As a pioneer of vacuum technology, Leybold offers a wide range of vacuum components, standardized and fully customized vacuum solutions, complemented by vacuum technology accessories and instrumentation.

Our core capabilities center on the development of application- and customer-specific systems for the creation of vacuums and extraction of processing gases.

If used for modified atmosphere packaging, skin packaging or thermoforming – using the vacuum packaging solutions from Leybold increases the shelf-life time of foodstuff by the a factor of 5 to 10. A packaged product offers minimized volume, espe-

cially with flexible packaging material, and protects against freezer burn.

In food processing, e.g. vacuum tumbling, massaging or freeze drying, customers can rely on the innovative dry running vacuum products of Leybold, e.g. the DRYVAC or the SCREWLINE which even features a cleanable pump chamber.

Leybold vacuum pumps offer best performance and reliability to support all kind of applications.
